BATTLE WITH INDIANS

United States Troops Engaged in Fight in Utah.

THREE REDSKINS ARE SLAIN

Another One Is Wounded and Ten More Are Captured, Among Them Being Their Troublesome Leader. More Trouble Is Feared.

Washington, Nov. 1.—United States troops, after fighting a battle in Southern Utah in which three Indians were killed and a fourth wounded, hold as a prisoner one of the most mysterious and persistent trouble makers with whom the federal authorities have had to contend for many years.

News of the battle, which took place several days ago, was conveyed to the Indian bureau in a telegram from Superintendent Shelton of the San Juan agency. The army command consisted of four officers, seventy-four men and three Indian scouts. The telegram to the Indian bureau, which was dated at Ship Rock, N. M., follows:

"The troops have returned from Southern Utah. They arrested Byllie and nine other Indians. Three others were killed and one wounded while shooting at the Indians. The Indians are quiet and I do not anticipate further trouble, unless it be from the Black Mountain Indians."

This is the first information received here regarding the encounter. The officials of the Indian bureau assume that the killed and wounded were Indians. Byllie, the captive named in the Ship Rock dispatch, is accounted a wizard by the Indians and a "bad Indian" by the bureau officials.

The Indians taken into custody are part of a band of Navajoes that have been making trouble on the Navajo reservation in Northwestern New Mexico and Northeastern Arizona. For some time a number of Indians, under the leadership of Byllie, have been creating disturbances because of their disinclination to observe the regulations of the Indian office and their efforts to prevent others of the tribe from doing so.

Made a Request for Troops.

So pronounced have their objections become and so offensive their actions, that Superintendent Shelton made a request that a body of soldiers be sent to the reservation. Troops I and K of the Fifth cavalry, under the command of Captain H. O. Willard, were dispatched from Fort Wingate, N. M., to Aneth, Utah.

It was understood at that time that they would simply go through the Indian country on a practice march, and it was not intended that their presence should mean any more than a demonstration to the Indians. Mr. Shelton's idea being that the mere sight of the soldiers would have a quieting effect upon the turbulent members of the tribe.

The friendly Indians have made many requests that Byllie be removed from the reservation, and on a previous occasion he was driven out with the admonition not to return. It is presumed that when the troops appeared he met them with force of arms and was captured while fighting, but not before four of his followers had fallen.

There was an intimation from Mr. Shelton of possible further trouble from some of the Black Mountain Navajos, but the officials of the Indian office are not apprehensive on that score.

COUNCILMAN CONFESSES.

Implicates Several Members of Legislative Body of St. Louis.

St. Louis, Nov. 1.—Developments came thick and fast in the boodle investigation being conducted by the grand jury soon after City Councilman George C. Linde was indicted and charged with malfeasance in office. When the charge was made against Linde he made a clean breast of his connection with contracts that have been let by the city, implicating several members of the city's legislative bodies, and wholesale indictments are expected. Linde also announced that he would resign his office and would tell the truth before the jury.

The confession came at the close of prolonged session of the grand jury, during which Linde was summoned to explain his relations to the Linde Carpet company, to which corporation it is alleged the house of delegates' cleaning contracts were sublet by the firm to which they were awarded. The indictment was returned under a law which forbids a city official having a financial interest in any contract under the city.

Boy Hunter Kills Himself.

Elroy, Wis., Nov. 1.—Theodore Kerwin, aged fifteen years, son of Mr. and Mrs. Edward Kerwin of Hustler, while hunting attempted to climb upon a stump and in so doing accidentally discharged his shotgun, blowing off part of his head. He died instantly.

THEORIES ARE CONFLICTING

Not Known What Has Become of New York Actor.

New York, Nov. 1.—The disappearance of Raymond Hitchcock, following his indictment by the grand jury which had heard the stories told three little girls, is the absorbing topic on Broadway, where those who had known the star actor intimately during his ten years on the stage advanced half a dozen theories in explanation of his default.

The actor's closest friends, who have energetically defended his name since he became involved in trouble, are divided in opinion.

Many insisted that, driven to desperation by the serious accusation, he had committed suicide. Others were satisfied that he had been spirited away and possibly murdered by men who had practiced blackmail on the comedian and who feared exposure if the case against their victim came to trial. This theory was voiced by Herman Fromme, the missing man's attorney, and by Mrs. Hitchcock.

While the theories gained some credence, the police have not relaxed their efforts to locate Hitchcock. All out-going steamers are visited and their passenger lists scrutinized. Detectives also watched the train stations, but their vigilance has not been rewarded.

District Attorney Jerome sent two detectives to Boston. This action probably grew out of the statement of a railroad conductor who thought he had Hitchcock as a passenger from this city to North Adams.

INVITATIONS DECLINED.

Secretary Taft Will Not Call on European Powers.

Washington, Nov. 1.—There are indications that Secretary Taft's decision to recur to his original itinerary and sail from Manila for Vladivostok on his homeward journey next Monday, instead of the week following as suggested to the president, was after all based upon international and not domestic consideration.

Soon after it had become officially known that he intended to return to America by way of Siberia and Europe the foreign offices of various countries which he would probably traverse on his way to the Atlantic seaboard began to interest themselves in his itinerary. Diplomatic representatives of some European governments have already been making inquiries at Washington as to the itinerary preliminary to extending to him formal invitations to their various capitals. It has been found quite impossible for an official of his high rank to visit one European country as the guest of the sovereign without visiting the capitals of other countries through which he must pass on his homeward journey, so it is believed that all invitations will be diplomatically declined by a change in Secretary Taft's itinerary.

WOUND UP IN A RIOT.

Raid by Undergraduates on Quarters of Theological Students.

Chicago, Nov. 1.—A raid by undergraduates of Northwestern university on Heck hall, where theological students at the same institution eat and sleep, ended in a riot in which thirteen of the "raiders" were arrested and lodged in Evanston jail and eight of the "theologians" thrown into Lake Michigan. Several of the students suffered scalds during the melee from hot water with which the theological men defended their quarters. The latter were warned of the proposed attack and were prepared with quantities of boiling water and long lines of hose. The battle waged for more than half an hour and caused the entire university settlement to seethe with excitement. When at its height Dr. Little, president of Garrett Biblical Institute, sent in a call for police. The police upon their arrival charged the students and captured thirteen, including a party which had just returned from the lake, where they had deposited eight of their victims.

SENATOR CLARK IS SUED.

Mexican Makes Sensational Allegations in Complaint.

Helena, Mont., Nov. 1.—Sensational allegations are contained in a complaint filed in the United States court here, wherein the Securusal Banco de Minero of Chihuahua, Mex., is the complainant and former Senator W. A. Clark, his son, C. W. Clark of San Mateo, Cal.; J. Ross Clark of Los Angeles, the Clark bank of Butte and the Colusa Parrot Mining company of Washington are the defendants.

Several years ago, when the Clarks were engaged in the mining business in Mexico, the complainant alleges, C. W. Clark made an overdraft for a large sum which he refused to pay and suit was brought. Judgment finally was secured and the bank garnished for the amount. It is reported that Clark had no deposits.

The complaint in the suit just filed alleges that false returns were made, averring a "doctoring" of the answer. It prays that if insufficient funds are found, enough of Clark's Colusa Parrot stock be turned over to satisfy the judgment.

BARGAINS EXCEPTIONAL

There is a mistaken idea, in the minds of some people, that when a store shows much of the better qualities of merchandise that all that they show is high priced. This may be true in some places but not with us. We show the very best that we can secure and also a splendid line of popular priced goods.

Some merchants advertise everything as bargains. That is impossible according to our idea. We aim to give you good value for every dollar spent and as MANY REAL BARGAINS as we can secure and we have a large number especially in our BARGAIN BASEMENT. We give you the description of a number of good bargains which you will find in our store Saturday and as long as they last.

Big Handkerchief Bargains

Twenty-five dozen of hemstitched embroidered ladies' handkerchiefs. This is a lot that we were fortunate enough to purchase at a big bargain. There are twenty-five different styles and every one a good style. We could sell every handkerchief at 15c and they would be splendid values at that price. They will make Christmas gifts that you need not be ashamed to give. Saturday

9¹/₂c

See the display of them in the west window

Children's Hosiery Bargains

Every parent with children that finds the item of hosiery a heavy expense should secure this bargain Saturday for we shall sell them on Saturday only at this price. This is a lot of heavily ribbed fleeced hosiery that should sell for 20c. We bought a great quantity of them and will give you the benefit of our purchase. The sizes range from 6 to 10. We will sell them SATURDAY ONLY at

2 Pair 25c

The best hosiery bargain our Basement offers

Mens' Underwear Bargains

We do not carry a line of men's goods as a usual thing but we purchased a lot of underwear that contained a large amount of men's wool undershirts. These are of the very best qualities—heavy or medium weight and sell in the Bargain Basement at following prices:

\$1.50 Men's Wool Undershirts at but..... 98c
\$1.00 Men's Wool Undershirts at but..... 74c
50c Men's Fleeched Undershirts at but..... 39c

Ladies' Coat Bargains

If our store leads particularly in any one line it is in our coats. We have splendid ladies' coats in the Bargain Basement at \$4.48, \$6.98 and \$7.98 but the ones we want you to remember today is the one we are offering on the first floor. We show this coat in black, blue, brown and castor, they are made in excellent styles—some lined thruout and all sell for but.....

\$10.00

A Bed Spread Bargain

Here is a bargain that you should secure. It is a full sized crocheted white bed spread—a good weight—a good pattern and a quality worth \$1.25. We have a limited number but those coming Saturday will secure them while they last—in the Bargain Basement at but.....

89c

Children's Coat Bargains

We have about fifteen or twenty coats that will make that number of persons bargains. They go in the Bargain Basement Saturday at just about half their original prices. There are light and dark colorings—good wearing qualities—and will fit children from 6 to 14 years. We want you to see these garments if you want a garment that will not cost you much—at about

1/2 Price

Our Ribbon Bargains

No bargain that we offer is more worthy of the name than the ribbons we show in our Bargain Basement. There are all widths and splendid qualities. They are the most economical for children's school hair ribbons and especially desirable now that you are making Christmas gifts. Better see these bargains.

Another Bargain in Lace Curtain Sample Ends

You know what it means when we advertise a bargain of that sort. It means that if you can use lace curtains 5 and 6 feet long that you will get them practically for a song for these curtains are worth from \$2.00 to \$5.00 a pair in the regular way. They are traveler's samples and we secure them so that we can sell them for almost nothing. You will find a number of the same patterns if you come early Saturday for we will place a large number of new ones on Sale. But come Saturday morning for while we shall add nearly two hundred we predict that by Saturday noon the majority of these will be sold.

They will be placed in two lots, 25c and 35c each

THE H. F. MICHAEL Co.

WANT NO CROP NEXT YEAR

Tobacco Growers Would Make Burley District Unproductive.

Shelbyville, Ky., Nov. 1.—The National Tobacco Growers' association unanimously adopted resolutions declaring against the raising of a crop of burley tobacco next year.

The adoption of the resolution as to nonproduction of tobacco in the burley district sets at rest all doubts as to the attitude of the national association.

It was pointed out that while there is an oversupply of tobacco in the burley district, there is a scarcity of the weed in the dark districts and nonproduction would do no good there. The same is true of various other parts of the country to such an extent that unanimity on the part of the members of the National Tobacco Growers' association could not be secured on the nonproduction plan and the project would be a failure as a national movement.

As the situation now stands, without prospect of change, the only non-producing district will be the burley district, comprising over thirty counties in Kentucky, a few in Indiana and one or two in Ohio.

BIG DEAL IN TOBACCO.

Entire Crop in Five Kentucky Counties Is Purchased.

Henderson, Ky., Nov. 1.—By a deal consummated here the Imperial Tobacco company purchased the whole 1907 tobacco crop, pledged to the American Society of Equity in Henderson, Union, Webster, Hopkins and Crittenden counties. The deal involves 16,000,000 pounds of tobacco, and will bring \$1,500,000 of English money to the farmers of this section. The price

paid was that demanded by the farmers and is the highest price ever paid, with the exception of the war prices. All equity factories and employees are taken over by the Imperial company and will be continued in service. Deliveries will begin as soon as the tobacco is in order. The gold will be shipped from England at once.

NEW RATES ARE ENJOINED

Federal Court Restrains Increase in Lumber Tariffs.

Seattle, Wash., Nov. 1.—Federal Judges Wolverton and Hanford, at the conclusion of a hearing on the petition of the Pacific Coast Lumber Manufacturers' association, granted an order temporarily restraining the Northern Pacific railway and others from putting into immediate effect the proposed increase in eastbound rates on lumber of 10 cents per 100 pounds, making the rate 50 cents instead of 40 cents. The injunction was issued pending the final determination of the justice of the new rates by the interstate commerce commission. The lumbermen are required to pay any difference between the existing rate and the rate which finally shall be adjudged legal. The bond was fixed at \$250,000.

The railroads concerned solely in this restraining order, applicable to both Washington and Oregon cases, are the Northern Pacific, Great Northern, Chicago, Burlington and Quincy, Union Pacific, Oregon Railroad and Navigation company and the Oregon Short Line.

No Trouble Expected.

Pierre, S. D., Nov. 1.—Telephone messages from the Cheyenne agency say that all is quiet there. No trouble is expected.

TWO OF THEM MAY DIE.

Woman Tried to Kill Herself and Her Two Children.

Rochester, N. Y., Nov. 1.—Mrs. Henry A. Leonard, the wife of a mason of this city, attempted to kill herself and two small children by taking

laudanum, giving some of it to the children and then turning on the gas in her room. The mother and a baby daughter are in the hospital in a critical condition. The second child, a four-year-old girl, will recover. Ill health is given as the cause.

LITTLE DAMAGE DONE

Hallowe'en was Unfavorable Weather for the Playing of Pranks and Little Damage was Done

The clerk of the weather was not in accord with the small boys—last night and there were comparatively few Hallowe'en pranks reported this morning. There were a few out houses tipped over and a few crowds were out throwing beans against the windows, but there was little real damage done. There was some damage done the night before, but then as last it seems to have been actuated by personal spite rather than by any Hallowe'en spirit.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

MUSIC AND DRAMA

Coming Attractions

Soon—Alice in Wonderland.

Soon—Adelaide Thurston.

Adelaide Thurston

Adelaide Thurston, the brilliant young actress, will be seen here again very soon in her greatest success, "The Girl From Out Yonder." It is said of her that she is a born child of the stage, not a made one. All her instincts are artistic, all her actions unpremeditated and yet both have been developed in the atmosphere of the stage.

It is easy for her to adapt herself to all conditions. She could act as well on the rough stage of the town hall of a country village as she could surrounded by all the accessories of a great New York theatre, and what is more she has that intangible quality that carries her audiences to the point of forgetting any little delinquencies of stage management also.

She never had to learn the art of makeup; it came natural to her. She is what is known as a quick study and is invariably letter perfect in her own part by the time the first rehearsal of a new play is called.

Alice in Wonderland

Among the many captivating stories for children, none is so popular as the beautiful fairy tale of "Alice in Wonderland" by Lewis Carroll; so popular has this become that it is now installed as a reader in most of the public schools throughout the land. Almost every mother and every child is now familiar with the strange and beautiful dream of "Alice in Wonderland," but it is not until quite recently that this charming story has been set to music and dramatized. The operetta seems destined to become as famous as the story under the skilful direction of the dramatizer, Miss D. Hope Leonard, and the able management of Col. John F. Bragg, of New York City, who have been engaged in presenting the grand spectacular production in the principal cities and theatres during the past six seasons. The production is magnificently staged and requires from one hundred and fifty to two hundred and fifty people to assist the principals in presenting the various scenes portrayed by the author. The hatter, cat, rabbit, fish, frog, mouse and other numerous animals are introduced, as well as king, queen, duchess, etc., accompanied by fairies, attendants, elves, injuns, judges, march and flag girls, Columbia, Uncle Sam, etc.

A Significant Prayer

"May the Lord help you make Bucklen's Arnica salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. It quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c at H. P. Dunn's drug store. mwfdw

\$21,000 MORE IN TAXES LEVIED

A SUCCESS
The Hallowe'en Bazaar Given by the Bachelor Maids at F. S. Parker Home was Profitable

Brainerd Must Pay that Amount in Excess of Assessments Levied Last Year

BESIDES SPECIAL ASSESSMENTS

Levy Will be 41 Mills on the Dollar as Against 31.50 Mills Last Year

Brainerd tax payers have not grumbled any the past year because of low taxes. That there will be some tall kicking done when they go to pay next year is a forgone conclusion. There has been the neat little sum of \$21,245.93 levied more on the city of Brainerd alone than was the case last year. The city of Brainerd has not yet turned in its levy to the county auditor, but as ordered at the meeting of the city council last Monday night it is 8.73 mills on each dollar of valuation, which brings the total levy on the city of Brainerd to 41 mills. Last year the total was 31.50 mills, making a raise of nearly one-third. Where a man paid \$30 last year he will pay \$40 this year. The advance in the city of Brainerd amounts to over \$2 for each man, woman and child in the city. The raise for the schools alone is \$10,500 or half the entire raise on the city, as the school levy 20.12 mills is almost half of the entire levy of 41 mills. The following are the amounts asked by the schools for the year as compared with last year:

CITY SCHOOLS	1907	1906
Operation of schools	\$30,990	\$26,007.73

Murderer Commits Suicide.

Houston, Tex., Nov. 1.—E. G. McNair, recently convicted of wife murder at Beaumont, Tex., committed suicide by hanging himself to the bars of his cell in the county jail here. McNair's crime was committed at Port Arthur, Tex., where he killed his wife, wounded his mother-in-law and then shot himself in an attempt to commit suicide.

A SUCCESS

The Hallowe'en Bazaar Given by the Bachelor Maids at F. S. Parker Home was Profitable

A very decided success, both socially and financially was the bazaar given at the home of F. S. Parker by the Bachelor Maids Thursday evening. There was a variety of fancy articles on sale and refreshments were served. They say the bewitching smiles with which the fair Bachelor Maids beguiled the dollars out of the pockets of admiring young men was a caution. The proceeds of the bazaar which are to go for charity, were about \$50.

CHANGE IN BANK

Assistant Cashier Stoerck of Citizens' State Bank Resigned and is Succeeded by L. M. DePue

Ernest Stoerck, for several months past assistant cashier of the Citizens' State bank, has resigned his position and has been succeeded by L. M. DePue, recently on the road for the International Harvester company. Mr. DePue comes well recommended and will doubtless make good in his new position. Mr. Stoerck will go to Little Falls and Des Moines, Iowa, for a visit and will then probably go to Winnipeg to make his home. He has many friends here who will wish him success wherever he decides to locate.

Letter to Mrs. E. E. Forsythe, Brainerd, Minn.

Dear Sir: Mr. N. Avery, Delhi, N. Y., had two houses exactly alike, and painted them: one Devoe lead-and-zinc, the other barytes-and-zinc. He paid the same price for both paints.

He used six gallons of lead-and-zinc, 12 gallons barytes-and-zinc.

He paid \$18 for painting lead-and-zinc, \$36 for painting barytes-and-zinc.

The total cost of the lead-and-zinc job was \$27; the total cost of the barytes-and-zinc job was \$54.

He didn't know he was buying barytes; the dealer told him that paint was as good as Devoe.

A fair example of how it generally comes-out, when you buy "something just as good." Better go by the name and the name is Devoe.

Yours truly,

THE BEGINNINGS OF BRAINERD

The Founding of the Town as Gathered From Reminiscences of I. U. White

WHEN ONLY A BOY OF SIXTEEN

He Tramped From Crow Wing to the Site of Brainerd Before a Nail Was Driven

The famous phrase, "All of which I saw and part of which I was," which former United States Senator Harlan applied to the history of the republican party, could with equal justice be applied to the relationship between I. U. White and the history of the city of Brainerd.

On the 20th of September, 1870, a boy of sixteen, but who looked to be 20 or 21, short, stocky and broad shouldered, weighing close to 170 pounds got off the stage from Sauk Rapids at the then frontier settlement at Crow Wing, and stretching his legs, with his pack on his back, started through the pine woods up the Mississippi river. He was not starting for Brainerd, because Brainerd was not. Crow Wing was then the end of the stage line, a mere settlement. Little Falls was unheard of and Ft. Ripley was true to its name, a stockade garrisoned with Uncle Sam's soldiers sent here to protect the settlers from the sometimes hostile Indians. After a hard tramp of several miles the lad arrived on the site of what was afterwards designated as "The City of the Pines." The preliminary lines of survey for the Northern Pacific railroad had been run and the work of construction had been commenced at Northern Pacific Junction near Duluth, but the crossing of the Mississippi river had not been determined upon. A line had been run through Crow Wing, but Mr. Morrison, the owner of the site of that village, and the company could not agree on the price of the land for a town site and the northern route was chosen. On that September afternoon there was not a building erected or one even started. Along the line of survey, however, there was a gathering of tents in which were a goodly number of hardy pioneers, waiting for a decision as to the location of the town which the railroad promoters had decided would be built on the river bank at the point of crossing. Edward White, familiarly known to old timers as "Uncle Ed," had preceded his son and was already on the ground. A day or two later the decision was made and work commenced with a will. The first work on which Mr. White and his son were engaged was the building of what is still known as the old Hallett trading post on West Main street. With the exception of a small building erected by the late Lyman P. White as an office, and afterwards incorporated as a part of the White residence on North Seventh street, this was the first building of any kind on the site of the city.

The old trading post was the first job on which young White worked and it came near being the last, in which event the city would have lost one who in after years was destined not only to wear the distinction of being the oldest inhabitant, but of being one of her most respected business men. As soon as the location was decided upon a small saw mill was stuck in on the river bank between where the railroad bridge and the Laurel street wagon bridge now stand, and the first lumber sawed went to build the old trading post. It was being erected for Fuller and Eustiss, to be used for a saloon, gambling house, etc. A bowling alley was put in connection. It was not a Brunswick-Bolke-Collander alley, but was made from lumber saved from newly cut logs and dressed after it was laid. The roof of the alley was of slabs from LeDuce's saw mill. While Ike was dressing the alleys the weight of the slabs, which were green and right out of the water, proved too much for the supports and the structure collapsed burying the young man in the debris. He says now that the most vivid recollections he has of the accident are how badly his father was scared. He was not seriously injured, though he was pretty nearly gone when they got him out.

The needs of the community being filled by the erection of a saloon and gambling house the luxuries were looked to and a building alongside the trading post was erected for the E. H. Bly Mercantile company. Other buildings were rapidly erected and by the time winter closed in nearly 200 buildings, such as they were, had been erected. Nearly all were of rough board sides with tent roofs stretched over them. There was a whole row of gambling houses, most of them 25 by 100 feet and constructed on the same primitive plan.

In October of that fall Mr. White and his son hired out to L. P. White and a man named Cory, who had the contract for the erection of the small bridges and culverts for the railroad between Brainerd and Duluth. During

the entire winter they worked at that, sleeping in tents. Mr. White in speaking of that winter a few days ago said that in his entire life he had never spent a more comfortable and agreeable winter than that he spent in camp life. In March he and his father returned to their home in Franconia, Minn. After a few weeks spent at home they returned and Mr. Edward White was appointed superintendent of bridges and buildings of the Northern Pacific railroad, having supervision of the erection of all bridges and buildings between Duluth and Fargo. For several years his son worked with him and still has in his possession an annual pass issued by the Northern Pacific in the early seventies for "I. U. White and Men." His duties were largely to look after the various gangs at work along the line and many are the miles he helped to pump a hand car in making the trips. The wildness of the country at that time can hardly be imagined he says. Except at the camps erected along the line of the road there was not a human habitation scarcely along the entire route. Scarcely a stick of timber had been cut and all was in a state of primitive wildness. Deer were plentiful and the season was twelve months long and the camps largely subsisted on game. The following fall, 1871, Mr. Edward White brought his family to Brainerd and from that time on, with the exception of a few summers when he worked in Minneapolis and in Ashland, Wis., I. U. White has been a resident of Brainerd.

COURT DECIDED IN HIS FAVOR

Cooper Fought to Retain Formula Which Has Made a Fortune.

L. T. Cooper, the man who believes that 90 per cent. of all ill health of this generation is caused by stomach trouble, is fast winning a national faith in his theory. His claim is now admitted by a surprising number of people throughout the country, and he is gaining new adherents every day.

While speaking of his success in a recent interview, Mr. Cooper said: "I believed ten years ago that any one who could produce a formula that would thoroughly regulate the stomach would have a fortune. When I got hold of this formula I knew within six months that I was right, and that my fortune was made. I called the medicine Cooper's New Discovery, although I did not get up the formula. I have owned it, however, for over three years. I have had one lawsuit over it, which I won in the courts. When it was settled The Cooper Medicine Company became the only firm in the world that can prepare the medicine. The preparation has sold like wildfire wherever introduced. As I have said before, it is successful simply because it puts the stomach in perfect shape, then nature does the rest. There are any number of complaints never before associated with stomach trouble that the medicine has alleviated in thousands of cases."

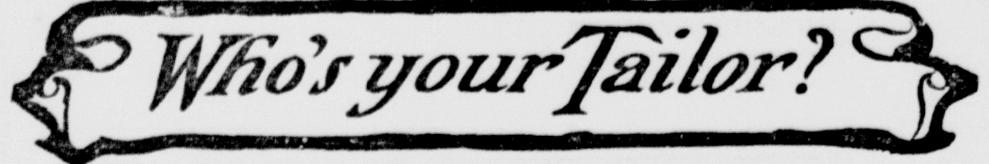

Among statements obtained recently from users of this medicine that is arousing such universal discussion is one from Mrs. Emma Stanley, living in Chicago, at 713 Washington Boulevard, who said: "Perhaps I had the most complicated case that Mr. Cooper had to deal with. I was troubled for years with my stomach. I consulted with doctors and took many patent medicine preparations without result. My stomach was in such a wretched shape that I could not enjoy a meal that I ate.

"I was very nervous, and could hardly sleep; I had a roaring in my ears and dancing spots before my eyes. I felt very bad and weak. Then there was a very sore spot at the pit of my stomach that nearly set me wild.

"I heard about the Cooper medicine and decided to try it. I used four bottles, and the improvement in my case has been really wonderful. My nerves have been quieted, and I am so much improved that I feel like a new woman.

"I cannot say too much for these wonderful remedies, for they have made me well."

We sell the Cooper medicines and consider them well worth a trial by any one afflicted with chronic stomach trouble and its attendant diseases.—H. P. Dunn & Co.

THE SUPPLY OF CASH

Indications Are That It Will Be Materially Enlarged.

INCREASED CREDITS ABROAD

Expected to Result From the Movement of Grain and Cotton Crops. Recognized Everywhere That the Acute Stage of the Crisis Is Over.

New York, Nov. 1.—Indications that the available supply of cash would be materially increased within a short time, both by imports of gold and the increase of the bank note circulation, indicate that the movement of cotton and grain crops would be facilitated in every way possible with the result of increasing our credits abroad, are the salient features of the financial situation. It seems to be recognized everywhere that the acute stage of the crisis is over and that all that remains is to obtain sufficient currency to resume currency payments upon a broad scale and thus to restore conditions that prevailed before the crisis. The engagements of gold made in New York, Chicago and elsewhere brought up the total import movement within the past week to \$23,750,000. As the amount of gold will afford a basis of credit to four times the amount, or about \$95,000,000, it will in itself afford much relief to the existing pressure. The action of the Bank of England in raising its discount rate from 4½ to 5½ per cent was in accordance with expectations in conservative circles. The fact that the increase was not made to 6 per cent and that the English rate remains 1 per cent below the German rate is accepted as an indication that the situation at London is not considered as acute.

The prompt response of the national banks throughout the country to the suggestion of Comptroller Ridgely that they should employ their United States bonds as largely as possible to secure circulation and substitute other bonds for those pledged against deposits of public money promises a considerable increase in the available stock of currency. The estimates of an increase in the bank note circulation of \$30,000,000 is considered well within the possibilities. It will require time, however, in some cases for the banks to obtain proper bonds to substitute for their United States bonds. Mr. Vanderlip, vice president of the National City bank, made the fruitful suggestion that the savings banks would at once improve the general situation and add to their resources if they would sell their holdings of United States bonds to the national banks. Even in cases where they do not care to sell it is believed they will lend the bonds to the national banks, as has often been done in the past.

Movement of the Cotton Crop.
Interest is continuing to center in the movement of the cotton crop from New Orleans and other Southern points, which it is so essential to provide bills against the imports of gold. Secretary Cortelyou, according to Washington dispatches, is disposed to increase deposits of public funds in the Southern banks as rapidly as such funds become available. This will supply the banks with the stock of currency so much needed to handle the cotton crop, and will enable them to await with less embarrassment than otherwise the arrival of their cotton bills in Europe and the bringing back of the gold.

The committee of New Orleans bankers which is in Washington has suggested that the New York banks can ease the situation by giving the Southern banks credit for checks in foreign banks forwarded as soon as they receive telegraphic advices of the amounts. This will enable the Southern banks to check against such balances in payment of collections and in making remittances to interior banks throughout the country.

It is noted with interest by leading bankers here that the present scarcity of currency and the recourse which had been had to the national bank circulation are arousing unusual interest in the plan for currency reform that has been endorsed by the American Bankers' Association. The committee that framed the measure was continued with authority to take further action. Some of the Western members are strongly desirous that a meeting of the committee be called at an early date in order to bring the subject properly before congress while public opinion is aroused.

SCARCITY OF CURRENCY.

Main Feature of Financial Situation in Pittsburgh.

Pittsburg, Nov. 1.—The scarcity of currency in this city is the only feature of the local financial situation commanding attention. While no serious inconvenience has as yet been caused to the general public, the situation is causing considerable anxiety to bankers.

It is hoped that the plan of Comptroller of the Currency Ridgely to increase the bank note circulation will relieve matters, but Pittsburg bankers are not over enthusiastic. The trouble experienced locally is in securing such securities as will be acceptable to the treasury department.

The payroll of the Pittsburg district is very large and the scarcity of money has been responsible for much activity among bankers to meet this item.

ELECTIONS IN RUSSIA.

Count of the Votes Is Progressing Very Slowly.

St. Petersburg, Nov. 1.—The count of the votes in the final stage of the parliamentary elections in St. Petersburg is progressing very slowly. Among those elected are M. Belaiev, Octoberist, a rich exporter, and Professor Milukoff, editor of the Rech and leader of the Constitutional Democrats, and M. Rodtcheff is thought to have been elected.

Moscow returned in the second stage M. Golovine, who was president of the last lower house, and M. Maklakov, Constitutional Democratic leader in the same house. There was no choice in the first stage at Moscow, in which M. Guishkov, the chief Conservative leader, opposed Prince Paul Dolgorukoff.

M. Guishkov says the Conservatives intend to follow conciliatory policy toward Constitutional Democrats in the lower house and will support a Constitutional Democrat for the vice presidency of the house. M. Rodlanko of Erkaterinoslav is slated for the presidency. He is in high favor at court, where he holds the rank of chamberlain, and has had experience in the chair, having presided over the zemstvo congress at Moscow last June.

PLEADS GUILTY TO FORGERY

Former Secretary of Andrew H. Green Admits Charge Is True.

New York, Nov. 1.—Lyman S. Andrews, former secretary of the late Andrew H. Green, "Father of Greater New York," pleaded guilty to forgery in the second degree in court here and was remanded for sentence. Andrews fled to Mexico in December, 1904, taking with him, it is alleged, funds belonging to some of the estates for which the Green estate was responsible. He returned later and gave himself up. His attorney told the court that he had made restitution so far as he could and was deserving of clemency. The specific charge against Andrews was the alleged forgery of a check for \$4,806.

QUIET AT SAN FRANCISCO

Banks Receive Deposits and Cash All Checks.

San Francisco, Nov. 1.—San Francisco passed quietly through the first day of the series of public holidays proclaimed by Governor Gillette. All of the local banks, excepting the California Safe Deposit and Trust company, which has suspended, opened their doors at the usual hour and received deposits and cashed checks. There were no attempted runs and the general volume of business was reported as not out of the ordinary. Over the state reports were similarly encouraging.
